Free Trial Lessons | For every new interested client we offer a free trial lesson. For those who still cannot decide after a trial lesson, whether to continue the music lessons, we recommend trying a "Mini Trial Package". These small series of lessons should already give clients enough experience to make their choice.

Consulting | Free consulting services for clients who are planning to buy musical instruments, but don't know where. We always know the best current prices and choices to choose the right instrument for your children or for yourself! We can also help you to plan in advance your regular lessons, the summer lessons and the optional audio recording services, helping you to choose the right contract or package, following your requirements, giving you more flexibility, freedom.

Adults & Senior Students | We'd like to encourage the parents and grandparents as well to participate and enroll to our courses! We use specially developed course material for adult and senior students. It often happens, that people study music as a child, but then for some reason they give up and quit. Then later as they become grownups and settle down, most of them regret the fact that they quit many years ago and wish to start all over again. On the other hand, there's the other group of adults and seniors, those, who always wanted to learn how to play on a musical instrument, but never had a chance or the time.
