All prices are in CHF

Trial Lessons | For every new interested client we offer a free trial lesson. For those who cannot still decide after a trial lesson, whether to continue the music lessons, we recommend a "Mini Trial Package". This small series of lessons should already give clients enough experience to make their choice.

Calendar & Extra Lessons | The Music School calculates 15 weeks per semester (30 weeks in a school year). This would give to families enough time to comfortably make-up any cancelled lessons - due to illness, family trip, etc. In case of a student has only a few or no lesson cancellations, therefore completes the 30 lessons before the end of the school year, the Music School will offer a small music lesson package with the necessary number of extra lessons, that will last until the last week of the school year. These extra lesson packages can be also combined with summer lesson packages.

Summer Lessons | To give continuity, the music school offers customizable packages for the summer period. The dates of these lessons can be agreed directly with your teacher. Families can freely choose the duration and the number of lessons included in the summer package, according to their availability. These summer lessons serve primarily to minimize the inevitable loss of instrumental knowledge already acquired, to study a specific problem more profoundly (technique, reading, rhythm, etc.), for which there is not always enough time during the school year, or simply to enjoy yourself by learning your favourite songs. These optional summer lessons just like the extra lessons have the same unit prices as the regular individual or group lessons.

Consulting | Free consulting services for our clients who are planning to buy musical instruments, but don't know where. We always know the best current prices and choices to choose the right instrument for your children or for yourself! We can also help you to plan in advance your regular lessons and the summer lessons, helping you to choose the right contract or package, following your requirements, giving you more flexibility and freedom.

Time Differences | The prices will be calculated "pro rata temporis" in case of differences in excess or defect compared to the period of the semester.

The cost of the selected course consists of the price of the lessons and the administrative fee. The total amount is to be paid in advance, before the beginning of the lessons, and at the latest before the 2nd lesson. If monthly payment plan is selected, the monthly rates are to be paid at the beginning of each month (September-June). In case of non-payment by the second lesson, the Music School reserves the right to suspend the lessons temporarily, applying an extra administrative cost of 10 CHF.
